EDUCATION

University of California, Santa Barbara

B.S. Statistics and Data Science

Minor: Language and Speech Technologies

Santa Barbara, CA

07/2022-06/2026

4.0 G.P.A.

- Relevant Coursework: Linear Algebra, Differential Equations, Vector Calculus, Probability and Statistics, Regression Analysis, Statistical Methods in Linguistics, Predictive Modeling in Linguistics, Data Structures and Algorithms, Principles of Data Science With R, Designing Expressive Technologies, Digital Media Design

WORK EXPERIENCE

Savie Health

Data Analysis/Marketing Intern

Remote/Lompoc, CA

07/2022-Present

- Created promotional graphics and e-blasts in English and Spanish to advertise the nonprofit — which began operating in June 2022 — and helped secure over \$100,000 in funding through email marketing and data reports for grant requests
- Built and managed Instagram, Facebook, and LinkedIn pages, which receive an average of 1000 monthly engagements
- Analyzed patient health data using Python and Excel to assist Savie Health, a startup nonprofit providing free healthcare to those without insurance, in decision-making to help over 1000 uninsured people receive medical and behavioral care
- Designed and edited promotional videos with Adobe After Effects to increase social media reach and recap events

Daily Nexus

Data Editor and Games Section Founder

Santa Barbara, CA

04/2023-Present

- Designed crosswords with JavaScript; taught Python and R visualization, data analysis, and web scraping workshops
- Implemented staff D.E.I. analysis and project managed The Labyrinth — a public dashboard of 15 years of grade data from 40000 UCSB courses displayed using D3.js charts; Guided 50 writers throughout the entire article creation process

Assistant Data Editor

09/2022-04/2023

- Self-taught Python to create multiple interactive charts and interviewed sources to compose articles about events across Santa Barbara; Wrote and edited articles on the UC strike, Diwali, Halloween, historical crime trends, sports, and D.E.I.

UCSB Department of Computer Science

Lead Undergraduate Learning Assistant (4 Quarters: Introduction to Data Science 1/2)

Santa Barbara, CA

04/2023-Present

- Taught weekly class sections of 30 beginner data science students table operations, hypothesis testing, bootstrapping, statistical prediction techniques, linear regression, data visualization, error measurement, and data analysis concepts.
- Graded 200 weekly coding and analysis assignments and oral presentations and held weekly office hours to provide one-on-one support for conceptual understanding, homework, labs, and projects; Created midterm and final projects

Computational Psycholinguistics of Listening and Speaking Lab

Undergraduate Research Assistant

Santa Barbara, CA

01/2023-Present

- Built models of simple dynamical systems of language change in Python by deriving and implementing formulas for statistical model analysis and optimizing parallel process and file writing runtimes from 120 minutes to 30 seconds
- Developed an SQL tool to query word frequency and score data from 1000 sample stimuli databases and determined best samples by calculating Jensen-Shannon divergence 1000 times for 30 classifications of data using kernel density curves
- Conducted word-based and morph-based phonotactic scoring and analysis of 200000 fake Spanish words using Python Pandas, SRILM, and Morfessor to generate a set of stimuli for an experiment examining Spanish proto-lexicons

San Francisco District Attorney's Office

San Francisco Sentencing Community Initiatives Data Fellow

San Francisco, CA

06/2023-09/2023

- Created a regeneratable temporal and geospatial data memo using HTML, JavaScript, and Python Plotly detailing crime trends in San Francisco supervisor and police districts that will be distributed to community members across the city
- Analyzed several databases of over 200000 county crime records and visualized crime location trends using Geopandas, R, Python Plotly, and ArcGIS for grant requests; Wrote a 21-page guide on how to analyze and map geospatial data

SELECTED ACCOMPLISHMENTS AND PROJECTS

- *2nd Place @ California College Media Awards* - Mentored 2 Daily Nexus reporters, who will place in “Best Interactive Graphic” (Statewide), in journalism and data visualization with Python Plotly and Matplotlib (03/2024)
- *Finalist @ UCLA DataFest* - Evaluated 850000 American Bar Association Free Legal Answers records in 48 hours with Pandas/Natural Language Processing and designed charts with Python to propose accessibility improvements (04/2023)
- *1st Place @ California College Media Awards* - Best Infographic (statewide) for “Halloween in Isla Vista” - Designed a graphic for Daily Nexus depicting crime trends and the history of Isla Vista’s police activity during Halloween (03/2023)

Technical Skills: After Effects, ArcGIS, Canva, D3.js, Excel, Fusion 360, HTML/JavaScript/CSS, InDesign, JavaScript, Photoshop, Python, R, Rhino, SQL, Tableau, TouchDesigner, Vectorworks
